Strain Profile

KOMBUCHA

ABOUT THE STRAIN

Type: Hybrid

Breeder: Symbiotic Genetics

Lineage: Sour Diesel x Purple Punch
F2

FLAVOR & AROMA

Berry Spicy Diesel Grape

DESCRIPTION

A superstar cross of Sour Diesel and Purple Punch F2, KomBUCHA buds are frosty purple surrounded by even deeper purple leaves. KomBUCHA has a notable film of trichomes with deep amber pistils that give it a delicate balance of color. The aroma is of spicy diesel and grape with a deliciously smooth smoke that leaves a kombucha-like aftertaste. The effects are well balanced, offering relaxed energy with an uplifting euphoric mood.
